

Get Together - Frauen im Engineering

Dr. Béatrice Conde-Petit

From becoming an engineer to inspiring engineers –
my journey from food material scientist to future of food strategist

Tuesday, November 5th 2019, 5 - 7 PM
Keynote, Networking & Aperitif

Béatrice Conde-Petit holds the position of Food Science & Technology Expert for the Bühler Group. She drives strategic innovation projects at the interface between science, technology and business around the world. Béatrice is responsible for the Future of Food Program with focus on sustainable food processing leveraging collaborative innovation with customers, academia, startups and suppliers.

Béatrice Conde-Petit holds a Diploma and PhD in Food Science & Technology from ETH Zürich. Before joining Bühler in 2008, Béatrice worked at ETH Zurich for 20 years as researcher, lecturer and consultant to the international food industry.

Dear Women in Engineering

We are very happy to present you an inspiring role model for our third Networking Event:

In her speech Béatrice Conde-Petit will tell us about her experiences during her versatile career and will be happy to answer your questions. Afterwards, as always, you are invited to network and discuss extensively. We are looking forward to a stimulating evening with many interested and interesting women!

We are looking forward to a vibrant evening with enriching discussions!

Claudia Lorenz

MSc ETH EEIT

Sabine Proll

Dipl. Math. oec.

Jasmin Smula

Dr. sc. Informatik ETH

Susanne Suter

Dr. sc. Informatik UZH

Program

- Keynote: «From becoming an engineer to inspiring engineers - my journey from food material scientist to future of food strategist»
- Questions & Discussion
- Networking & Aperitif
